Launching Event: Budgeting for Better Agriculture and Rural Development

*October 10, 2017, 10:45 – 12:00
Orion Conference Center, Pristina*

In August 2016, the Ministry of Agriculture, Forestry and Rural Development (MAFRD) committed to implementing gender responsive budgeting, in accordance with legal obligations set forth in the Law on Gender Equality and requests made by the Ministry of Finance in recent budget circulars.

Since then, MAFRD officials have received support from the Kosovo Women's Network (KWN) in conducting gender analyses of past and present programs and expenditures. Conducting such gender analyses is essential for ensuring that budget planning for 2018 and beyond is informed by evidence.

KWN is pleased to invite you to the public launching of the results of our joint efforts, which have resulted in a new publication entitled *Budgeting for Better Agriculture and Rural Development*. During this event, KWN will present key findings and recommendations resulting from the analysis, as well as welcome discussion regarding the findings.

This initiative has been made possible through the generous support of the Austrian Development Agency (ADA).

The media are welcome to attend.
