

Public Call for Applications for Capacity Building and Sub-Granting in Gender and Climate Change Financing

Call Reference No: 2841/06/24

Project: STRENGTHENING TRANSPARENCY AND ACCOUNTABILITY FOR GENDER EQUALITY IN WESTERN BALKANS AND MOLDOVA (GENDER BUDGET WATCHDOG NETWORK, PHASE II)

Financed by: Austrian Development Agency and Swedish International Development Cooperation Agency

Implementing partners: Center for Research and Policy Making, Gender Alliance for Development Centre; Centre for Civil Society Promotion; Kosovo Women's Network; Women Action; Gender Knowledge Hub, Keystone Moldova

The Gender Budget Watchdog Network (GBWN) announces a public Call for Applications for Capacity Building and Sub-Granting in Gender and Climate Change Financing by the Gender Budget Watchdog Network from **N. Macedonia, Serbia, Albania, Bosnia and Herzegovina, Kosovo, Montenegro and Moldova.**

Project background

Governments have yet to fully implement commitments to gender-responsive budgeting (GRB) and to institutionalize GRB throughout the budget process. Additionally, gender analysis and a gender-transformative approach to climate change in the Western Balkans (WB) and Moldova is limited. Meanwhile, while the engagement of civil society on gender and climate change, respectively, has increased, only a few crosscutting initiatives on gender equality and climate change have existed. CSOs and policymakers still lack knowledge, methodologies, and skills in GRB, particularly related to climate change and resilience response financing.

The overall objective of our joint Project is to improve public commitments for gender responsive climate action and increase available financing to implement gender-responsive climate action in the WB region and Republic of Moldova

The anticipated **Project outcomes** include to:

- Strengthen visibility and international recognition of the work of the Gender Budget Watchdog Network;
- Increased CSO capacities to use GRB tools watch-dogging climate change policy and financing;
- Improve CSO participation in policy and budgeting processes by using gender budget watchdog;
- Improved availability of tools for increased government accountability, particularly in resilience response, climate change financing and gender responsiveness of the climate change policy framework

CALL FOR APPLICATIONS

As the advocates of social justice and equality, it is crucial that CSOs have a deep understanding of gender-responsive budgeting and how the governments should apply it to create more equitable societies. Therefore, with this call, we invite civil society organizations from the WB and Moldova to submit a project concept note for the following types of grants:

National Grants - Two (2) grants will be awarded per country, with the maximum amount of €8,000 per grant. Projects must be completed in a period of up to eighteen months from the date of the signature of the contract.

Regional Grants - Two grants will be awarded with the maximum amount of €25,000 per grant. Projects must be completed in a period of up to twenty-four months. In total 16 grants (2 per country and 2 regional) will be provided under these grant schemes.

The concept note should relate to gender-responsive budgeting and climate change financing, including gender analysis to inform expenditures, monitoring expenditures using gender impact analysis, or using other GRB tools. Potential issues that projects may focus on may be, but not necessarily limited to:

- Gender in Global Environment Facility (GEF), Green Climate Fund (GCF), Least Developed Countries Fund (LDCF) and Special Climate Change Fund (SCCF);
- Gender in WBIF, EIB and EBRD green projects;
- Gender in national budget supported climate resilience projects;
- Gender in local budget climate change supported projects.

After selection, the representatives of each of the selected organizations will have to commit to attend training modules on gender responsive budgeting and gender and climate financing and where they will develop their knowledge regarding different GRB tools. This knowledge should then be used to develop a full project proposal with tailored assistance (mentoring guidance) from gender budgeting and climate finance experts and mentors from GBWN. The training modules are available online on the [GBWN e-academy](#) (Basic GRB and Advanced GRB), designed specifically for CSOs. The face to face training on “Monitoring Gender and Climate Change Finance” will be organized in-person in Albania from 25th to 27th September 2024. The applying organizations will need to nominate one representative to attend and complete these trainings, specifying the attendee of the Albania training during the application process. After attending these trainings, the organizations will be invited to submit full proposals for funding.
